ULUSOY UN

in brief

Ulusoy Un Industry and Trade Joint Stock Company; It was established in 1989 to manufacture, trade, import and export all kinds of food products such as flour, semolina, pasta and biscuits made from grains and legumes.

Ulusoy Un's field of activity is the production, trade, domestic and international sales of wheat flour, bran and other feed raw materials, as well as the domestic and international trade of various grains, especially wheat, as well as licensed warehousing activities. 2,085 tons/day in our 50th Year factory operating in Samsun Food Organized Industrial Zone, 400 tons/day in Çorlu Tekirdağ production facilities, Söke Değirmencilik San. and Tic. Inc. It has reached 1,440 tons/day in our company's Aydın and Ankara factories and 4,200 tons/day with the Antakya factory with a capacity of 275 tons/day, which is expected to start operating in the fourth quarter.

Ulusoy Un started exporting in 1995 and has exported flour to 102 countries to date. It realized approximately 8.8% of the sector's exports in Turkey in 2022.

We have been on the Fortune 500 list, which lists Turkey's 500 largest companies, every year since 2012. In ISO's Turkey's Top 500 Largest Industrial Enterprises survey, which was announced according to 2022 production-to-sales figures, our company ranked 273rd, rising 102 places compared to the previous year.

We are proud and happy to be the 69th largest company in Turkey with a net sales amount of 20.434 billion TL in 2022. Our company, which ranks 3rd among Turkey's agricultural, grain, dairy, meat and aquatic products companies, has the title of Turkey's 33rd largest company in the stock market companies list, and is the 28th largest company in Samsun that has increased its exports the most. became a company.

Our company, which closed the year 2022 with a sales revenue of 20.4 billion TL, was again included in the TİM1000 list with its success in exports. With its exports of 114.9 million dollars in 2022, it rose 76 places in the list compared to 2021, becoming Turkey's 247th largest exporter and the 17th largest exporter in the grains, pulses, oilseeds and products sector.

The company purchased 17% shares of SASBAŞ Samsun Free Zone Founder and Operator Inc. on 28 March 2013.

With this investment, Ulusoy Un has gained a significant influence in its management by participating in the Samsun Free Zone, one of the most strategic points in the Black Sea Region, which has the storage and logistics infrastructure needed especially for the development of transit foreign trade. On 20.11.2014, Ulusoy Un went public and its shares started to be traded on Borsa Istanbul.

On 27.02.2015, Uludağ Agricultural Products Licensed Warehousing

Joint Stock Company, which was established as a 100% subsidiary of our company, invested in the Licensed Warehousing system, which we can consider as the future of the agricultural sector. Currently, 42,000 tons of Çorum/Alaca, 67,000 tons of Yozgat/Sorgun, 60,000 tons of Kırıkkale/Çerikli and Söke Milling facilities are approximately 20 km away. It continues its Licensed Warehousing activities with a total capacity of 187,450 tons in 4 regions, including 18,500 tons in Aydın/Germencik, located at a distance. On 15.03.2018, our subsidiary named ROLWEG SA was established in Geneva, Switzerland, with 100% of its capital belonging to Ulusoy Un Sanayi ve Ticaret A.Ş.

On 18.09.2019, Alfaway Gıda Sanayi ve Ticaret A.Ş. was established with 100% of its capital belonging to Ulusoy Un Sanayi ve Ticaret A.Ş.

Söke Değirmencilik Sanayi ve Ticaret A.Ş. (Söke Un) shares were purchased by our company on 11.01.2022.

Söke Un shares, which were offered to the public in Borsa Istanbul in 2023, started to be traded as a result of a record demand of 118 times, and as the second public company in the sector, it paved the way for new companies to go public.

OUR LIFE

PURPOSE

OUR STRATEGY

AND GOALS

OUR VALUES

OUR FUTURE DREAM

“Our aim is to take our company’s activities to a global scale, drawing our strength from teamwork, together with all our colleagues who are experienced in their fields, without compromising our principles, values and goals.”

OUR STRATEGIES

To be at the closest point to the market with our different production points and to be able to deliver our products to the customer with the lowest logistics costs.

To direct purchases from raw material production regions to the most logistically appropriate production facility at the right costs.

To have a product range that will meet all consumer demands by increasing product diversification.

Creating new products as a result of R&D studies and turning them into brands.

OUR CORPORATE VALUES

Honesty;

We carry out all our work in accordance with the law and rules.

We always keep our promises. We act with endless respect for professional ethics, our environment and all our stakeholders.

Responsibility;

We do what needs to be done, not what we can. While fulfilling our responsibilities, we work with awareness of our duties and responsibilities as individuals, as a team and as an institution.

OUR LIFE PURPOSE

“To be a preferred business partner in the sector as a company that wins in competition by producing healthy products that meet different customer needs, follows the developments in the sector, is open to communication, and does not compromise on business ethics and quality.”

OUR GOALS

Reducing costs by reducing distribution costs.

To increase total capacity by increasing our production points.

To appeal to the entire market. Increasing market share into more productive segments of the industrial and consumer market.

Productivity;

We are planned, disciplined, result-oriented and determined. We work with all our strength to achieve the goals we set.

Development;

We are always open to development and learning, individually and corporately. We strive to improve ourselves, our teammates, our stakeholders and to learn new things.

Team spirit;

We are sharing, we believe in common sense, communication, empathy, loyalty and dedication.

““In ISO’s Turkey’s Top 500 Largest Industrial Enterprises survey, announced according to 2022 production-to-sales figures, our company ranked 273rd, rising 102 places compared to the previous year. This ranking, which is the fruit of investments made in production capacity for years, is the most successful result in the company’s history. Our high-capacity production facilities, in addition to being an important power in our country’s industry, have become the insurance of the food security of not only our country but also Asian and African countries.”

MESSAGE FROM THE CHAIRMAN OF THE BOARD

Dear shareholders,

As Ulusoy Un, we continue our investments without slowing down in line with our long-term goals. We now aim to be a global manufacturer not only in flour but also in the entire flour and bakery products category. In the future, we want to be involved in the entire chain from wheat to table, especially on the consumer side.

The most important step we took in this sense is the acquisition of Söke Değirmencilik, which we made in January 2022. We aim to grow and expand the consumer product experience that Söke has brought to us in the flour and bakery products category.

We invest in renewable energy in order to produce clean energy to protect the future of the world and reduce our carbon footprint. We started working by receiving the call letter for the RES Project with a capacity of 13.96 MW to produce our own energy. By commissioning a 779 kWp

Rooftop Solar Power Plant within the Çerikli Branch of one of our subsidiaries, Uludaş Tarım Ürünleri Licensed Warehouse Inc., and a 155 kWp Rooftop Solar Power Plant within the Sorgun Branch, Uludaş's entire electricity consumption started to be met from green energy. We will continue our work in the field of sustainability without slowing down.

We have been on the Fortune 500 list, which lists Turkey's 500 largest companies, every year since 2012. We are proud and happy to be the 69th largest company in Turkey with a net sales amount of 20.434 billion TL in 2022. Ulusoy Un, which ranks 3rd among Turkey's agricultural, grain, dairy, meat and aquatic products companies, took the title of Turkey's 33rd largest company in the stock market companies list, and the 28th largest company in Samsun that increased its exports the most. It became a big company.

In the Istanbul Chamber of Industry's Turkey's Top 500 Largest Industrial Enterprises survey, which was announced according to 2022 production-to-sales figures, our company ranked 273rd, rising 102 places compared to the previous year. This ranking, which is the fruit of investments made in production capacity for years, is the most successful result in the company's history. Our high-capacity production facilities, in addition to being an important power in our country's industry, have become the insurance of the food security of not only our country but also Asian and African countries. We would like to thank all my colleagues who contributed to this success, and we continue to create value for life together.

I wish for a happy and peaceful world without war.

Eren Günhan ULUSOY
Chairman of the Board

“We continue our work on the construction of Wind Power Plants (RES) to be established in Manisa and Izmir provinces in order to provide the electricity consumption of our Samsun 50th Anniversary and Central, Çorlu and Antakya production facilities from renewable energy sources. If the power plant, which we plan to commission in the first quarter of 2025, is put into operation on this date, we expect that by 2025, the company will meet all of its energy needs with its own production, eliminating any energy expenses, and obtaining energy income from the amount of electricity production above this.”

MESSAGE FROM THE CEO

Dear stakeholders,

Dear stakeholders, While we continue to strengthen our exports with the exports we recently made to the 102nd country, we will continue to maintain our position as the leader of the Turkish flour market and the largest flour producer with our capacity reaching 4,200 tons/day. We have accelerated our deepening in the sector within the country in the last two years. We plan to maintain our leadership with our actual consumption tonnage and installed capacity at the end of 2023.

As a result of our growing activities, our company's sales revenue reached 24.0 billion TL in the third quarter of 2023, increasing by 75.5% compared to the same period of the previous year. In the same period, our equity increased from 1.66 Billion TL to 4.09 Billion TL.

We continue our work without slowing down. We work on plans and models that are suitable for today's conditions and ready for change. We don't make decisions based on old strategies. Our primary agenda is growth and sustainability. We want to have a product range that will create synergy in geographies where we are not present. Our goal is to add value to everything we touch. But we always draw our route with our values. This is a must for an organization that moves forward with firm steps.

In the milling industry, we have gained strategic and logistical advantages all over our country with our 5 production facilities located in 5 provinces. We were planning to complete the revision works of our Antakya factory in this period. However; In our region, which was one of the places affected by the earthquake disaster that occurred on February 6, 2023 and deeply saddened our country, we had to update the production transition date of the factory to the last quarter of 2023, as there was a shortage of human resources and delays beyond what we anticipated in the work with the organizations from which we receive services.

We continue our Wind Power Plant (WPP) construction works to be established in Manisa and Izmir provinces in order to provide the electricity consumption of our Samsun 50th Year and Central, Çorlu and Antakya production facilities from renewable energy sources. If the power plant, which we plan to commission in the first quarter of 2025, is put into operation on this date, we expect that the company will meet all of its energy needs with its own production as of 2025, eliminating any energy expenses and generating energy income from the amount of electricity production above this.

With the results of 2022, we have become the 69th largest company in Turkey, the 33rd among listed companies, the 28th with the highest increase in exports, and the largest company in Samsun. We jumped 102 places in the ISO top 500, ranking 273rd. I declare that we will continue our work with firm steps in the next period and I would like to thank all my teammates.

Zahit ÇETİN
CEO

COMPANY ACTIVITIES AND IMPORTANT DEVELOPMENTS RELATED TO ACTIVITIES

Significant Events During and After the Reporting Period:

- Lease based on management contract under the Lease Certificates Communiqué (III-61.1) with a nominal value of up to 500,000,000 TL (Five Hundred Million Turkish Liras), with different maturities, by Emlak Varlık Kiralama Anonim Şirketi, as the source organization and/or fund user of our company. It has been decided to issue lease certificates, to issue these lease certificates as bearers to be sold to private and/or qualified investors domestically, and to apply to the Capital Markets Board for the issuance of lease certificates in this context. The issuance made to the Capital Markets Board (CMB) on 02.06.2023. The ceiling application was approved on 27.10.2023.
- Our application for the planned debt instrument issuance, which we announced with our Cap disclosures dated 10.02.2023 and 03.03.2023, was approved by the Capital Markets Board with an issue ceiling of 750,000,000 TL.
- It was announced that an application was made for the installation of 4 Wind Power Plants with a power of 4.2 MW and 1 wind energy power plant of 5.56 MW to be established in Manisa and Izmir provinces in order to provide the electricity consumption of our Samsun 50th Year and Center, Çorlu and Antakya production facilities from renewable energy sources. Our Call Letter has been received from the Distribution Company in charge for the 13.96 MW capacity of our Wind Power Plant project, including 2 units of 4.2 MW and 1 unit of 5.56 MW. A negative opinion was given to our applications for the remaining 2 4.2 MW capacities, and our work to develop new land for the relevant turbines continues. With the investment to be made in line with the capacity for which the Call Letter was received, it is planned to offset the 2022 electricity consumption amount of 37.2 million kWh of our Samsun 50.Yıl and Central, Çorlu and Antakya production facilities from the production of the 13.96 MW wind energy electricity generation plant to be established, and the remaining approximate production will be Electricity. It will be sold to the relevant supply company in the market at the price determined within the scope of the “evaluation of surplus energy” article of the Unlicensed Electricity Production Regulation. Investment studies regarding the capacity for which the Call Letter has been received are continuing, and the plant is aimed to be commissioned in the first quarter of 2025. If the power plant is commissioned on this date, it is expected that by 2025, the company will meet all of its energy needs with its own production, have no energy expenses, and will generate energy income from the amount of electricity produced above this. Our work on Wind Energy investments continues, and necessary announcements will be made based on legal compliance.
- In our planning studies carried out within the scope of achieving our company’s long-term goals, it has been understood that the inclusion of different product groups in our product range in different geographies in the field of international commodity trade is important for global competition. In this context, in order to support existing commercial operations and evaluate potential investment opportunities, the studies on the establishment of two companies with different statuses in accordance with the laws and obligations of Malta, which has a strategic importance in terms of access to EU opportunities as a location due to being a member of the European Union, were initiated, and Eren Günhan ULUSOY” to manage the relevant process. It was decided unanimously to authorize .

- In our Kap announcement dated 05.04.2023, it was announced that our factory purchased in Antakya Organized Industrial Zone was planned to be put into operation in the third quarter of 2023. However; In our region, which is one of the places affected by the earthquake disaster that occurred on February 6, 2023 and deeply saddened our country, the factory's transition to production date has been updated to the last quarter of 2023, as there is a shortage of qualified human resources and delays beyond what we anticipated in our planning in the work with the organizations from which we receive services.
- Özova Hububat Tarım Ürünleri San. and Tic. Ltd. Şti's one-storey prefabricated building, two-storey steel workplace, six steel silos and qualified land with a surface area of 19,936.28 m², numbered 22 sheets, island 245, parcel 146, in Aydın Province, Germencik District, Mesudiye District, Church Area location. , Our 100% subsidiary Ulidaş Tarım Ürünleri Licensed Depoculuk San. and Tic. Since it was considered to be purchased by Özova Hububat Tarım Ürünleri San. and Tic. Ltd. Ltd. As a result of the valuation report prepared by Invest Gayrimenkul Değerleme ve Danışmanlık A.Ş. and peer comparisons of similar companies, it was understood that the value of 63,000,000 TL was reasonable, and as a result of the bargaining made taking into account the depreciation costs, the relevant real estate was purchased for 60,500,000 TL. The real estate in question is the only licensed warehouse operating in the field of grain in Aydın province and is approximately 20 km away from our subsidiary Söke Değirmencilik production facilities. It is thought that it will have a positive impact on our activities strategically due to its location at a distance. The licensing process for the Licensed Warehouse has been completed and an operating certificate has been received. The total licensed warehouse capacity of Ulidaş Tarım Ürünleri Licensed Warehouse San.ve Tic.A.Ş. has reached 187,450 Tons.
- Our application to the Capital Markets Board to amend Article 6 of the Company's Articles of Association as attached in order to increase the registered capital ceiling of our company from 422,500,000 TL to 2,500,000,000 TL and to extend the registered capital ceiling period until the end of 2027 has been approved. . The CMB approved amendment text is attached.

SÖKE UN

SÖKE UN

Söke Flour; It entered the sector in 1963 to produce and sell flour and flour mixtures.

The Company, one of the brands that offers a wide product portfolio to consumers, has 60 years of industry experience. The company has foreseen the importance of logistics opportunities in the food industry in which it operates and has established 2 different production facilities in 2 different regions of Turkey by following a strategy to position its production facilities with a logistic advantage.

In this regard, the company produces flour and flour mixtures in the Aydın-

Söke Factory, established on an area of 51,674 square meters, of which 19,356 square meters is closed, and in the Ankara-Sincan Factory, established on a total area of 22,994 square meters, of which 7,638 square meters is closed.

In 2022, Söke Un will become 100% Ulusoy Un Sanayi ve Ticaret A.Ş. became a subsidiary.

As of 30.09.2023, Söke Un's total number of personnel is 371. Head Office is in Aydın province. With a wheat crushing capacity of 800 tons per day in Ankara and 640 tons of wheat per day in Söke, Söke produces

flour according to need by crushing 1440 tons of wheat per day. Söke Un shares, which were offered to the public in Borsa Istanbul in 2023, started to be traded as a result of a record demand of 118 times, and as the second public company in the sector, it paved the way for new companies to go public.

| Descriptions | |
| Explanation | Our company established a flour production facility on 5,095 square meters of land with a crushing capacity of 275 Tons/Day, registered in Hatay Province, Belen District, Şenbük District, 113 Island, 3 Plot, located in Antakya Organized Industrial Zone, with a total price of 14,350,000 Turkish Liras, on 5,091 square meters, 113 Island, 4 Plot. The storage area on the land was purchased for a total price of 5,000,000 Turkish Liras. The facility has a closed area of 6,880 m2 on a total area of 10,186 m2. The facility is currently inactive. A Quick Structural Health Monitoring (QSHM) report was received to determine whether it was damaged in the earthquake centered in Kahramanmaraş, and all the buildings in the real estate in question were examined and found to be completely undamaged. It is planned to be put into operation in the third quarter of 2023 after revision works for capacity increase and technology renewal. With this purchase, it is aimed to gain a cost advantage by using the ports in the Mersin, Adana and Iskenderun regions to supply raw materials, and to increase our export tonnage thanks to the proximity to our country's southern neighbors. With the facility starting production, our company will have the opportunity to access the domestic market in the south and southeast regions of our country with more cost-effective transportation. Thus, we have reached the active production capacity to expand sales to all regions of Turkey. Moreover; With the commissioning of this facility, it is aimed to increase employment and contribute to economic development in the region affected by the earthquake disaster. We present it to the public Best regards |

| Notification Content | About our company's RES (Wind Power Plant) project. |
| Description | <p>In our PDP announcement dated 31.01.2023, we made an application for the installation of 4 Wind Energy Power Plants with a power of 4.2 MW and 1 piece of 5.56 MW to be established in Manisa and Izmir provinces in order to provide the electricity consumption of our Samsun 50th Year and Central, Çorlu and Antakya production facilities from renewable energy sources. It was announced. In order to ensure self-consumption from renewable energy sources in line with our company's sustainability strategy, as of 19.07.2023 (Today), our Company and Enercon Global GmbH and Enercon Wind Power Plant Installation Services LTD. The turbine delivery contract for the ULUSOY UN RES project, which will be Turkey's largest self-consumption wind energy electricity generation plant with a total power of 22.36 MW, was signed between ŞTİ. With the investment to be made, the 2022 electricity consumption amount of our specified production facilities, 37.2 million kWh, will be offset from the production of the 22.36 MW wind energy electricity generation plant to be established, and the remaining approximately 36 million kWh production will be used for the "evaluation of excess energy" according to the Unlicensed Electricity Production Regulation in the Electricity Market. It will be sold to the relevant supply company for a period of 10 years at the price determined within the scope of the article. Work on the investment in question continues, and the plant is aimed to be commissioned by the end of 2024. If the power plant is put into operation on this date, it is expected that by 2025 the company will meet all of its energy needs with its own production and will have no energy expenses, and will generate energy income from the amount of electricity produced above this.</p> <p>We present it to the public.</p> <p>Best regards</p> |

| Notification Content | About our company's RES (Wind Power Plant) project. |
| Description | <p>In our PDP announcements dated 31.01.2023 and 19.07.2023, we announced 4 Wind Power Plants of 4.2 MW and 1 piece of 5.56 MW to be installed in Manisa and Izmir provinces in order to provide the electricity consumption of our Samsun 50th Year and Central, Çorlu and Antakya production facilities from renewable energy sources. It was announced that an application had been made for its installation. Our Call Letter has been received from the Distribution Company in charge for the 13.96 MW capacity of our Wind Power Plant project, including 2 units of 4.2 MW and 1 unit of 5.56 MW. A negative opinion was given to our applications for the remaining 2 4.2 MW capacities, and our work to develop new land for the relevant turbines continues. With the investment to be made in line with the capacity for which the Call Letter was received, it is planned to offset the 2022 electricity consumption amount of 37.2 million kWh of our Samsun 50.Yıl and Central, Çorlu and Antakya production facilities from the production of the 13.96 MW wind energy electricity generation plant to be established, and the remaining approximate production will be Electricity. It will be sold to the relevant supply company in the market at the price determined within the scope of the "evaluation of surplus energy" article of the Unlicensed Electricity Production Regulation. Investment studies regarding the capacity for which the Call Letter has been received are continuing, and the plant is aimed to be commissioned in the first quarter of 2025. If the power plant is commissioned on this date, it is expected that by 2025, the company will meet all of its energy needs with its own production, have no energy expenses, and will generate energy income from the amount of electricity produced above this. Our work on Wind Energy investments continues, and necessary announcements will be made based on legal compliance.</p> <p>We present it to the public. Best regards</p> |

As a result of the voting regarding the amendments made in Article 6 of the Articles of Association of the Company, the following new version of Article 6 was unanimously approved with 566,694.999 votes.

New Shape

ARTICLE 6 – CAPITAL, TYPES OF SHARES AND DISTRIBUTION OF SHARES

The company has accepted the registered capital system in accordance with the provisions of the Law No. 6362 and has switched to this system with the permission of the Capital Markets Board dated 01.10.2013 and numbered 33/1100.

The registered capital ceiling of the company is 2.500.000.000 TL (Two billion five hundred million Turkish Liras) and it is divided into 2.500.000.000 (Two billion five hundred million) shares, each with a nominal value of 1.00 TL (One Turkish Lira).

The registered capital ceiling permission given by the Capital Markets Board is valid for the years 2023-2027 (5 years). Even if the authorized registered capital ceiling has not been reached at the end of 2027, in order for the board of directors to take a capital increase decision after 2027, for the previously allowed ceiling or a new ceiling amount, not to exceed 5 years from the general assembly, by obtaining permission from the Capital Markets Board. It is obligatory to obtain authorization for a new period.

If the said authorization is not obtained, no capital increase can be made with the decision of the board of directors.

The issued capital of the company is worth 190.970.000,00 TL (One hundred ninety-nine million nine hundred and seventy-five thousand Turkish Liras). This capital is divided into a total of 190,970,000 shares, each of which has a nominal value of 1.00 TL, 22.035.000 registered group A shares, 14.690.000 registered group B shares, and 154.245.000 bearer group C shares. has been paid in full.

Unless otherwise decided by the board of directors in capital increases, each group uses the right of preference from its own group. In the event that there are shares remaining from the use of the preemptive right by the A and B group shareholders, these remaining shares are converted into C group and bearer shares without the need for any further action. If the Board of Directors restricts the shareholders' right to purchase new shares, all of the new shares to be issued are issued in C group and bearer written form. In addition, the board of directors is authorized to issue C group bearer shares in return for A and B group registered shares in capital increases.

Between 2023 and 2027, the Board of Directors decided to increase the issued capital by issuing shares up to the registered capital ceiling, and to issue shares above their nominal value, to restrict the rights of privileged shareholders and to limit the rights of shareholders to purchase new shares, when deemed necessary, in accordance with the provisions of the Capital Markets legislation. authorized to take decisions.

A, B and C group shares can be freely transferred in accordance with the provisions of the relevant legislation. In the transfer of shares, the Turkish Commercial Code, Capital Markets Law, Capital Markets Board regulations, other relevant regulations of the Capital Markets legislation, Central Dematerial System rules and other regulations regarding the dematerialization of shares are followed.

The capital of the company can be increased or decreased within the framework of the Turkish Commercial Code, the Capital Markets Law and the relevant legislation.

It shall be monitored within the framework of dematerialization principles shares representing the capital.

11- The eleventh item of the agenda has been passed. Informing the shareholders about the share repurchase program and share repurchase transactions carried out pursuant to the decision taken by the Board of Directors, Communiqué on Repurchased Shares No. II-22.I of the Capital Markets Board, press release dated 21.07.2016 and i-SPK 22.7 14.02 In accordance with the Principle Decision dated .2023 and numbered 9/177, the share repurchase initiated by the Board of Directors Decisions dated 01.02.2022 and numbered 2022/005 and dated 20.02.2023 and numbered 2023/06 in order to support healthy price formations regarding our Company's shares traded in the Stock Exchange. Within the scope of the programs, a total of 5,891,928 shares were bought back between 01.02.2022-06.05.2022, 20.02.2023 - 14.04.2023. No one took the floor to express an opinion. Pursuant to the mandatory Corporate Governance Principle No. No., the shareholders holding the dominance of the management, the Members of the Board of Directors, senior executives and their spouses and relatives by blood or marriage up to the third degree can make transactions and compete with the company or its subsidiaries in a manner that may cause a conflict of interest. must be approved by the General Assembly. In order to fulfill the requirements of these regulations, it was submitted to the approval of the General Assembly for the granting of the said permission. This issue was unanimously accepted by the General Assembly with 566,694.999 affirmative votes.

19- The nineteenth item of the agenda was passed. Wishes and opinions, In the wishes and opinions section;

Mr. Eren Günhan ULUSOY took the floor.

Distinguished attendee, esteemed meeting chairman, esteemed shareholders, thank you. The roots of our company go back to 1969 and our founding president was laid by our founding partner, Mr. Fahrettin ULUSOY. We have come to these days on these foundations, and today for the first time, we are in the bitterness of holding the General Assembly, which he could not attend due to his departure. But we, as both the Board of Directors and the employees, will work with all our efforts to carry this legacy he left us in the best way possible. We will further expand our activities in line with its principles. He was always advising us to protect our employment, to be entrepreneurs, to be useful to the country and the nation. We will continue to move forward on the path he has shown. In this context, our company's 2022 operating year has been recorded as the most successful year in the company's history, compared to previous years, within the framework of our publicly disclosed financial statements and annual reports. Our growth with both our operating profitability and sales revenue, as well as the public offering of Söke Değirmencilik A.Ş., our subsidiary, at the beginning of 2023, is the stock market of both the parent Ulusoy Un Sanayi and the subsidiary Söke Değirmencilik A.Ş. We shared this happiness together. We will continue to work and create value for the future of our company, our city and our country. I would like to thank our esteemed shareholders, shareholders, all our employees who have given us this trust, and our members of the board of directors who manage the company in this direction, both personally and on behalf of my company. Again, I commemorate our precious father with mercy and gratitude. I commemorate him with gratitude and mercy for dedicating his life to this, as he left us such a beautiful business to our country. I wish our 2022 general assembly to be a good one, thank you.

20- The twentieth item of the agenda has been passed. Since this item of the agenda is not subject to voting, voting was not done.

It was asked whether there were any objections to the decisions taken by the Chairman of the meeting and to the meeting. No one objected. Since there was no other topic to be discussed on the agenda, the Meeting Chairman, Mr. Bihan ÖZTÜRK, thanked the stakeholders and ended the meeting. This report was prepared in 5 copies at the meeting place on 19.04.2023 at 14:54 and was read and signed.

CORPORATE
SOCIAL

RESPONSIBILITY

Being aware of Turkey's need for qualified manpower, Ulusoy Un takes its responsibility towards society, especially education; It fulfills its purpose with the projects it supports in the fields of sports, economy and culture.

Eren Günhan Ulusoy, Chairman of the Board of Ulusoy Un, who wishes to establish social responsibility as a corporate culture, is therefore a member of many social and professional associations. He has been serving as the Chairman of the Board of Directors of the Turkish Flour Industrialists Federation, the umbrella organization of the flour industry sector, since May 2015. He is also the Vice Chairman of the Board of Directors of the Black Sea Cereals, Pulses and Oilseeds Exporters Association, Samsun Free Zone Operator Inc.

He also continues to serve as a Member of the Board of Directors of (SASBAŞ).

He also serves as the Chairman of the Eurasia Region Management Council of the International Association of Millers (IAOM), the most established organization of the milling industry in the world.

Ulusoy Un, which carries out many social activities in the field of education, which is the most important step of social social responsibility, is in this direction, in the Atakum district of Samsun province, the founder of the company, Mr. He donated the 24-classroom primary school named after Fahrettin Ulusoy to the Ministry of National Education in 2009.

Ulusoy Un, which contributes to the education of students who show determination and determination to study, gives non-refundable scholarships and provides internship opportunities to dozens of students every year in order to

make a difference in the knowledge and cultural level of the young generation that constitutes the dynamic of the society.

In addition, in order to maintain continuous cooperation with the university, our founder and chairman of the board attends meetings and interviews at the university, and at the same time, many department students visit our factory and follow the production processes closely.

Organizations with corporate social responsibility awareness have always been one step ahead in ensuring their success and continuity.

In order to take the right steps with this awareness, it is useful to benefit from the knowledge of non-governmental organizations. For this reason, we make our social responsibility behavior more effective by benefiting from the experiences of non-governmental organizations in our projects.

In addition, Ulusoy Un, which contributes to the education of students who show determination and determination to study by ensuring the participation of our employees, customers and stakeholders in every step of our projects, gives non-refundable scholarships to dozens of students every year in order to make a difference in the level of social dynamics and also in order to maintain its continuous cooperation with the university. Our founder and chairman of the board attends the university and food engineering students also visit our factory and produce.

Being aware of Turkey's need for qualified manpower, Ulusoy Un fulfills its responsibility towards society through the projects it supports in its fields, especially education.

Since 1998, she has been giving great support to children with leukemia and their families.

It has been a beacon of hope for more than 22 thousand children who have been treated for leukemia and cancer so far.

We, on the other hand, are regular donors of LÖSEV, which works without financial support from the state and survives with the support of the public.

In the work we carry out with both the foundation's headquarters in Ankara and its Samsun branch, we share with them the requested contributions as well as cash support.

Among the Design Skill Workshops included in the 2023 Education Vision Document published by the Ministry of National Education with the slogan "Happy Children, Strong Turkey", 9 Design and Skill Workshops located in Atakum, İlkadım, Canik and Tekkeköy districts have been completed and put into service by us.

Improvement works were carried out in the Fahrettin Ulusoy Primary School building, which was built by our Founding and Honorary President Fahrettin Ulusoy in 2010, an additional kindergarten building was built and Science and Skills Workshops were held in the main building.

Located in Samsun's Tekkeköy District, which students of all schools can benefit from, "Fahrettin Ulusoy Science Workshop House" has 6 workshops: Socio-Scientific Issues Awareness Workshop, Intelligence Games Workshop, Science and Technology Workshop, Applied Science Workshop, Robotic Coding Workshop and Creative Drama Workshop. " has been presented to the service of the district.

We think that one of the biggest investments we can make in the future of our country is the education of our young people and we continue to support their education. We are happy to have given scholarships to a total of 566 students between 2015-2023 and to contribute to their education by giving scholarships to 191 students in the 2023-24 academic period.

After the earthquake disaster we experienced, we delivered aid to the region in coordination with official institutions from the first day. We continue to support citizens affected by the earthquake in areas such as education, housing, employment, etc. We worked with all our strength to purchase an idle flour factory in the Earthquake Zone and provide employment to the region, and we will continue to create value for life in Hatay Antakya with this factory, which will be put into production at the end of the year. In addition to the aid provided, we sincerely wished to be able to take part in the debris work and aimed to have a search and rescue team so that we could reach more people. Today, we are proud to share that on the path we set out with this desire and belief, we have established our team of Ulusoy Un volunteers and completed all our training.

Since its establishment, the Foundation for the Raising and Protection of Mentally Disabled Children (ZİÇEV) has provided education and rehabilitation services to tens of thousands of mentally disabled individuals and their families, without age restrictions. As Ulusoy Un, we are happy to support disadvantaged individuals and families and benefit society by providing food support to ZİÇEV.

As Ulusoy Un, it is of great importance for us to support women's vocational training and employment. We believe that a strong society is possible with strong women. With this belief, we aim to increase women's employment and contribute to the production power of our country with the food support we provide to Public Education Centers in different districts of Samsun for students who continue their vocational education in pastry-cooking courses.

In addition to the individual support we provide to those in need, we also regularly provide food aid, especially flour, to women's shelters, non-governmental organizations and educational institutions we have determined.

A person in a dark suit and white shirt is pointing their right index finger towards a glowing white line graph. The graph has several data points connected by lines, with the most prominent point being a bright white dot. The background is a light, muted green color.

DOMESTIC AND
INTERNATIONAL
MARKETING AND
SALES
ACTIVITIES

Ulusoy Un attaches importance to the continuous continuation of

quality, product development and market studies with its expert and experienced staff. In this regard, it plans structural strengthening in its marketing and sales staff in order to strengthen product diversity and branding efforts and implements these plans within the period.

Marketing and sales staff; It plans and implements in accordance with the corporate structure in order to strengthen access to points, increase penetrations, increase turnover and tonnage, increase

profitability, maximize the quality of risk and collection management, maximize the level of awareness, and ensure complete customer

satisfaction and total quality management. In line with these plans; It strengthened its staff, where it carries out marketing and sales activities, with additional staff in 2019 and took important steps to achieve its tonnage and sales targets. All

domestic activities carried out; It is planned to further strengthen the existing customer risk management, collection processes, and all domestic customer commercial processes within the corporate structure and implementation studies are carried out. Apart from existing product groups; Product and market research continues, and data is

collected for R&D and Quality studies on product groups and markets in different lines, and work planning is made for these markets.

Ulusoy Un started exporting in 1995 and has exported flour to 102 countries to date.

We have been on the Fortune 500

list, which lists Turkey's 500 largest companies, every year since 2012. We are proud and happy to be the 69th largest company in Turkey with a net sales amount of 20.434 billion TL in 2022.

Our company, which ranks 3rd

among Turkey's agricultural, grain, dairy, meat and aquatic products companies, has the title of Turkey's 33rd largest company in the stock market companies list, and is the 28th largest company in Samsun that has increased its exports the most. Our company, which closed the year 2022 with a sales revenue of 20.4 billion TL, was again included in the TIM1000 list with its success in exports. With its exports of 114.9 million dollars in 2022, it rose 76 places in the list compared to 2021,

becoming Turkey's 247th largest exporter and the 17th largest exporter in the grains, pulses, oilseeds and products sector.

Our company rose 102 places in the ISO 500 list and became the 273rd largest industrial enterprise in Turkey.

QUALITY AND **R&D**

Our quality policy

Our company operates in the fields of wheat flour and bran production, packaging and sales;

-It has adopted the principle of providing products and services that comply with the laws, national and international standards, innovations brought by technology, customer-oriented and in line with their expectations, and making it a corporate culture.

-In line with our purpose of existence and our dream of the future; It has adopted an innovative and reliable production approach that focuses on efficiency, detects risks in advance and develops preventive approaches. -By prioritizing the satisfaction of our employees, we ensure the continuous improvement of our business processes by improving their technical and functional competencies, teamwork, participation and awareness.

- Not content with maintaining our current situation, it has determined continuous improvement at every point as our basic philosophy, and has established the awareness of preventing problems before they occur.

- It makes working conditions and production tools healthy by taking occupational health and safety measures.

- In all processes from raw material entry to the final product; It keeps its product under constant control with advanced laboratory techniques, without endangering human health, by producing it under hygienic conditions.

- It carries out studies to maintain awareness of environmental health and protection and prioritizes the protection of consumer rights.

- By managing our understanding of public health and correct and balanced nutrition in our raw material purchasing processes; It has developed a system against food fraud and food defense, not using GMO raw materials and products. In order to ensure the safety of our products, materials that ensure maximum cleanliness and hygiene conditions are used in our production.

- By sharing our strategic goal with at home and abroad, closely

monitors the developments in technology and carries out its production activities with advanced technology systems. Ulusoy Un meets consumers' needs for safe food consumption at the highest level and produces innovative products by following changing consumer demands.

With the fast and instant analysis devices (NIR online in the production area, NIT in the laboratory area) that it incorporated in 2020, each flour particle was analyzed within the scope of quality and food safety and released to the market. At the same time, these products were analyzed by cross-checking method with accredited external laboratories and the reliability of the results was verified and validated.

Possible foreign substances that may arise from the production lines have been eliminated with our automatic and state-of-the-art metal detectors and control screens, ensuring the reliability of each sack in terms of food safety. Risk analyzes were carried out throughout all personnel and process steps, and precautions were taken before errors occurred. Within the scope of these risk analyses, samples are taken at different periods and sent to accredited external laboratories, and the results are monitored with trend analyses.

In order to ensure continuity within the scope of quality and food safety, common awareness was created by providing on-the-job training, single-point training, applied training and presentation training to all new personnel, existing personnel, subcontractors and temporary personnel. Evaluation of customer satisfaction is carried out through periodic surveys. The results are shared with all personnel and used as data in target evaluations to increase satisfaction. Customer feedback is provided to all relevant parties instantly via the automatic notification system, and a root cause analysis is performed and feedback is provided to our customers within the specified day. Believing that contemporary life will gain value with our traditions, our company will continue to produce and offer these innovative products

for Turkish and world cuisines.

At all stages from field to fork;
- without compromising food safety and quality even for a moment,
- constantly improving quality,
- Meets customer expectations with its constantly evolving product range.

It evaluates creative ideas within the company by preparing environments for the collection and evaluation of innovative ideas. There are projects in functional food production activities and they are ready to be implemented in the targeted periods.

Ulusoy Un continues to produce "Healthy and Reliable" products in accordance with its quality culture and certificates. These certificates are as follows;

BRC (British Retail Consortium) Food Vers.8 (Çorlu Branch) ISO 9001:2015 Quality Management System,

ISO 22000:2005 Food Safety Management System,

ISO 14001:2015 Environmental Management System,

ISO 27001 Information Security Management System,

It has TS 4500 Wheat flour standard, GMP Good Manufacturing Practices and Halal certificates.

Ulusoy Un focuses its R&D activities on increasing the nutritional value of wheat flour. The slightest nutritional benefit obtained from flour and bakery products, which are the most widely used in nutrition, can quickly have an impact all over the world.

In order to ensure continuous quality and product safety and to preserve originality, systems have been established to provide easy access to the Ethics Line, Concern Suggestion Box and Feedback Systems for all employees to provide effective feedback, and they are actively monitored and any feedback is used to improve the system.

HUMAN RESOURCES

Ulusoy Un Sanayi ve Ticaret A.S.'s basic Human Resources Policy; To create an employee profile that will contribute to the sustainable increase of intellectual capital in order to maintain our ability to compete in developing and constantly changing market conditions, who is specialized in his profession, has advanced social competencies and high motivation in terms of teamwork, and creates added value, according to contemporary criteria, with the principle of equal opportunity for everyone.

We can define it as being able to maintain long-term cooperation with our employees by evaluating their performance and making career planning with an effective performance measurement system, and managing, directing and developing our human resources correctly. We can list the basic elements of our human resources policy as follows:

- To plan the personnel in terms of quality and quantity, to employ

personnel suitable for the job.

- Keeping the efficiency and effectiveness of the staff at the highest level

- Providing personal development opportunities to all personnel with an effective training plan and program

- To protect and improve the material and moral rights of the personnel

- Creating a work environment that fosters the willingness of all staff to work with their managers and providing an open communication environment.

- Supporting the professional, personal and social development of employees by providing equal opportunities to everyone in career planning. Human resources management is one of the functions that provides the most important support to the organization. The primary aim of our human resources management is to ensure that all human resources are used in the most accurate, most effective and efficient way in line with the

objectives of the business and that the right person is at the right place and time. As the human resources department, our goal is to encourage our employees to adopt efficient, not hard, working methods and to be an exemplary company where everyone wants to work and is proud to work. There is no ongoing or valid collective bargaining agreement in our company.

In addition to wages, travel and meals, our company provides its employees with private pension and complementary health insurance. Our number of employees, which was 842, including 333 office and 509 production employees, on 30.06.2023, has reached 968, including 380 office employees and 588 production employees, as of 30.09.2023.

- Natural and Geographic Risks
- Political and Legal Risks

- Risks Related to Production
- Risks in Terms of Human Resources and Occupational Safety
- Logistics Risks
- Sales and Marketing Risks
- Risks Related to Imports
- Export Related Risks

- Exchange Rate and Interest Risk
- Commodity Risk

SECTORAL RISKS

Natural and Geographic Risks

The main natural risks in agricultural production are; They can be listed as hail, frost, fire, drought, storm and flood.

Turkey has a great potential in both plant and animal production, but agricultural production cannot be increased to the desired level. In this context, fluctuations in the

Company's profit margins may occur due to the impact of fluctuations in the supply and demand balance on prices.

Since production depends on natural conditions on a large scale, fluctuations may occur in product yield, producer income and profitability.

In our country, there is a risk of crop loss caused by bacterial, fungal and viral plant diseases and damages.

Natural and geographical risks refer to risks that cannot be fully predicted and measured. However, in case the events listed above occur, the Company closely monitors the expected product yields at regional and international levels and increases critical stock levels in order to be prepared for raw material price increases that may occur due to possible yield decreases. It also manages its risk by making futures transactions on commodity exchanges.

Political and Legal Risks

Since wheat, which is the main input of the Company, is directly affected by the agricultural policies of the state, changes in the agricultural policies of the state that may reduce the profit margin may have a negative impact on the profitability of the Company.

Problems that may occur in the global economy and the resulting possible fluctuations in product prices may negatively affect the agricultural sector. Since production depends on natural conditions on a large scale, fluctuations may occur in product yield, producer income and profitability.

Low sector profit margins and the prevailing price-oriented competitive approach may cause negative effects from possible increases in general expenses and production

costs and a decrease in the sectoral profitability level.

The company manages its sectoral political and legal risks using similar methods as it does for natural and geographical risks.

OPERATIONAL AND COMMERCIAL RISKS

Risks Related to Production

It covers process risks that may prevent products from being made to the prescribed quality, content and standards.

In the process where wheat is processed as raw material, there is a risk of foreign substances mixing into the produced product both at each stage and between stages in the flow route where wheat is transformed into flour.

There may be risks of clumping, mold and insect infestation in the nooks and crannies of production facilities, production teams and

equipment, packaging-shipping and warehouses.

Breakage, deterioration, etc. in main production machines. There may be a risk of stopping production due to problems arising from these reasons.

During raw material entry processes, foreign substances are kept away from the processes with magnets and garbage purifiers. At certain stages, samples are taken

from the products and quality control is ensured through various analyses.

Personnel are provided with continuous and regular training on these issues, and cleaning and control processes are inspected

using "distributed sampling and period" methods. In addition, critical control points are determined (Final Control Screen and Metal Detector) to eliminate the risk at those points.

Machine maintenance and repair operations are carried out regularly, machine malfunctions are not waited for maintenance and repair and spare parts replacement, and any malfunctions and malfunctions that occur are promptly resolved by expert teams.

Comprehensive insurance policies

have been issued against all kinds of machine breakages and breakdowns.

Risks in Terms of Human Resources and Occupational Safety

There are risks to worker health and safety due to occupational accidents that may occur, and risks related to the inability to employ a workforce that is suitable for the job and will not disrupt the sustainability of the activities.

Personnel training is carried out regularly against possible work accidents. In addition, in accordance with the provisions of the current legislation, the necessary service is received from an Occupational Safety Specialist.

Against the risks of inadequate use of existing human resources and confusion in roles and responsibilities, the Human Resources Department established within the Company continues to take effective measures, make employee backup planning for critical roles and positions, and provide the necessary reports and information to the management.

Logistics Risks

It covers operational risks in purchasing (supply), storage and shipment processes. There is a risk of encountering operational risks during the process of shipping the purchased raw materials to the Company's warehouses, their retention time in stock, and their dispatch from the warehouses to production or sale.

Loss, spillage, accidents, etc. that may occur in all shipment processes of the Company. Comprehensive insurance policies are available against risks. In addition, flood, fire, theft, etc. that may occur during storage. Insurance policies have been issued against losses and damages. Adequate internal control mechanisms have been established, especially in the shipping and storage processes.

Sales and Marketing Risks

There is a risk that current account balances resulting from deferred sales made to credit customers, checks, promissory notes and similar bills received will go unrefunded and cannot be collected.

There may be a risk of abuse attempts by personnel assigned to collect collections in domestic areas. There is a risk that competitors will engage in aggressive competitive practices in the domestic market and new players will enter the market.

Before making credit (deferred) sales, necessary market intelligence studies are carried out in accordance with the Company's risk policy and a risk and limit amount is determined for the customers who are decided to work with them. It is ensured that ongoing activities remain within these determined risk and limit limits.

Inspections are carried out according to scattered periods and samples by inspectors working in the locations where the Company operates in the domestic markets, and comprehensive insurance policies are issued against fraud attempts.

There are always risks of new players entering the market and existing players implementing more aggressive sales policies, and domestic market developments are closely monitored by the Company's Sales and Marketing Department against these risks.

Risks Related to Imports

It covers all kinds of risks that may occur in import markets. There is a risk of a crisis in the import country markets and changes in production and tax policies. The company determines critical stock levels against such negativities and maintains these levels.

World yield expectations are closely monitored, alternative import markets are constantly monitored live and alternatives are kept in reserve. Comprehensive insurance policies are issued against logistical risks in import processes.

Export Related Risks

It covers all kinds of risks that may occur in export markets.

There are risks of anti-dumping practices of export countries, political, economic and cyclical instability and negativities.

Especially against anti-dumping practices, precautions are taken both by experts within the company and by professional organizations

at the sectoral level. Against the risk of cyclical, political and economic crises that may be encountered in export markets, the Company's Export Department constantly and vigorously researches export markets and keeps alternative markets in reserve.

FINANCIAL RISKS

Exchange Rate and Interest Risk

It covers the risk of foreign currency denominated assets and liabilities being affected by exchange rate changes and the risks that may occur in costs and cash flows due to the increase in the interest rate applied to financial debts.

Foreign exchange risk arises from the Company's foreign currency open position between its foreign currency liabilities and assets. The fact that foreign currency liabilities exceed assets creates a foreign exchange open position.

The Company's foreign exchange open position is monitored and effectively managed against any fluctuation risk through positions taken in the domestic Forward Options Exchange and forward transactions made with banks, thus turning it into predictable financial results.

The position size taken is changed depending on the developments in the market and the applied hedging model. Against the risk of increasing variable interest rates in short and long-term foreign resource use, the Company's Finance Department closely monitors the market and considers alternative methods.

Raw Material Price Change Risk It covers the risk of price changes that may occur in wheat prices in internationally organized markets to the detriment of the Company. Foreign exchange risk arises from the Company's foreign currency open position between its foreign currency liabilities and assets. The fact that foreign currency liabilities exceed assets creates a foreign exchange open position. In our country, wheat prices are determined by the regulation of the Soil Products Office. It intervenes in the market with different methods to protect the producer during price decreases and the consumer during price

increases. According to the physical wheat position in our stock; Risks are limited by performing partial hedging transactions on Cbot (Chicago Board Of Trade) and Matif stock exchanges at levels where domestic wheat prices and international stock market price spreads are widened excessively.

The background features a light green bar chart with five bars of increasing height, topped with upward-pointing arrows. The bars are labeled with percentages: 22%, 66%, 96%, 72%, and 102%. A dashed line graph with circular markers is overlaid on the chart, showing a fluctuating trend.

CORPORATE
GOVERNANCE

**PRINCIPLES
COMPLIANCE
REPORT**

Ulusoy Un has adopted compliance with and implementation of the "Capital Markets Board Corporate Governance Principles" published by the Capital Markets Board as one of its management principles. Our company has adopted the concepts of 'Equality, Transparency, Accountability and Responsibility', which are the main principles of the Corporate Governance Principles published by the CMB, and the necessary studies have been carried out during the implementation phase. Our company will continue to exercise due diligence to take the current situation further.

Equality

Our company is based on protecting the rights of company shareholders and treating all rights holders fairly and equally. In addition, it has accepted that our stakeholders will not be prejudiced or discriminated against due to gender, behavior, opinion or ethnic origin under all circumstances.

Transparency

Our company discloses all information that has not yet been disclosed to the public, that may concern the public and shareholders and/or that may affect investment decisions, in an accurate, complete and easily accessible manner, provided that it is not confidential or carries a trade secret.

Accountability

The company has adopted the principles of proving to shareholders the correctness of the decisions taken and taking responsibility.

Responsibility

While carrying out our activities, our aim is not only to increase the value of shareholders. At the same time, we act in accordance with social values and laws and operate our existing facilities with this understanding.

PART I. SHAREHOLDERS I. 1 SHAREHOLDER RELATIONS UNIT

The Investor Relations Unit was established in 2012 to manage and strengthen relations with shareholders. The unit is responsible for presenting the company's performance to existing and potential investors in a transparent and error-free manner.

The main duties of the unit are;

- Ensuring that shareholders attend the general assembly
- Informing shareholders and responding to their requests

- Ensuring communication between the Board of Directors and shareholders, answering shareholders' questions and reporting their opinions to the Board of Directors regularly
- To work on the development of the company's Corporate Governance and Social Responsibility practices.
- To observe and monitor all matters related to public disclosure
- Ensuring that records regarding shareholders are kept secure and up-to-date
- Taking measures to ensure that shareholders attend the general assembly.
- To announce all financial statements and reports, including our company's activity reports, profit distribution policy and proposal, and documents related to general assembly agenda items, to shareholders in a timely manner. Investor Relations Unit can be reached at 0(212) 325 55 34 and e-mail address yatirimci@ulusoyun.com.tr. Unit Manager: Yalçın TUTKAÇ

I.2 USE OF SHAREHOLDERS' RIGHTS TO OBTAIN INFORMATION

Information requested and questions asked from the Investor Relations Department are answered promptly, both by phone and in writing, by contacting the most competent person on the relevant subject, excluding confidential and trade secret information.

I.3 General Assembly

I.3 General Assembly

The Ordinary General Assembly Meeting of Ulusoy Un Sanayi ve Ticaret Anonim Şirketi for the 2022 activity year will be held on Wednesday, April 19, 2023 at 14:00, Denizevleri Mahallesi Alaçam Caddesi Ulusoy Un Sanayi ve Ticaret Anonim Şirketi

Block No:42/1 Atakum/Samsun - Turkey It was held at the address, under the supervision of the Ministry Representative, Mr. Sinan KURUDAĞ, who was appointed with the letter of the Republic of Turkey Samsun Governorship Provincial Directorate of Commerce dated 13.04.2023 and numbered E-39028009- 431.03-00084569990. The announcement and invitation for the meeting, as stipulated in the law and the articles of association and including the agenda, will be published in the Turkish Trade Registry Gazette dated 28 March 2023 and numbered 10799, page 130, on the company's website (www.ulusoyun.com.tr), Public Disclosure Platform (KAP), Central Registry Agency's e-company application and Electronic General Assembly System (EGKS), announced at least 21 days before the general assembly meeting and held within the time limit.

I.4 Voting Rights

Our company avoids practices that make it difficult to exercise the right to vote. Group (A) shareholders or their proxies present at the ordinary and extraordinary general assembly meetings have 15 (fifteen) voting rights for each share, group (B) shareholders or their proxies have 10 (ten) voting rights for each share and (C) group shareholders or their proxies have 1 (one) voting right for each share.

I.5 Profit Distribution Policy

After deducting the amounts that must be paid or set aside by the company, such as the general expenses of the company and various depreciation, and the taxes that must be paid by the company's legal entity, from the revenues determined at the end of the company's activity period, the profit for the period seen in the annual balance sheet is as follows, respectively, after deducting previous year losses, if any: It is distributed as shown: General Legal Reserve: a) 5% is allocated to legal reserves.

First Dividend:

b) From the remaining amount, the first dividend is allocated based on the amount to be found by adding

the amount of donations made during the year, if any, in accordance with the Turkish Commercial Code and Capital Markets Legislation.

c) After the above deductions are made, the General Assembly has the right to decide on the distribution of the dividend to the members of the board of directors, civil servants, employees and workers, foundations established for various purposes and similar persons and institutions.

Second Dividend:

d) The General Assembly may decide to distribute the remaining portion, after deducting the amounts specified in paragraphs (a), (b) and (c), from the net profit for the period, in whole or in part, as a second dividend share, or to reserve it as a reserve it voluntarily reserves in accordance with Article 521 of the Turkish Commercial Code. is authorized to set aside as cash.

General Legal Reserve:

e) One tenth of the amount found after deducting 5% dividend from the portion decided to be distributed to shareholders and other persons participating in the profit is added to the general legal reserve fund in accordance with the second paragraph of Article 519 of the TCC. Unless the reserve funds required by law are set aside and the dividend determined for the shareholders in the articles of association is distributed in cash and/or shares; another spare It cannot be decided to allocate funds, transfer profits to the following year, or distribute dividends to members of the board of directors, civil servants, employees and workers, foundations established for various purposes, and such persons and/or institutions. Dividends are distributed equally to all existing shares as of the distribution date, regardless of their issuance and acquisition dates.

The method and time of distribution of the profit decided to be distributed are decided by the general assembly upon the proposal of the board of directors on this matter.

According to the provisions of the articles of association, the profit distribution decision made by the general assembly cannot be

withdrawn. Our company's profit distribution policy; It has been adopted within the framework of the Capital

Markets Legislation and the provisions in our Articles of Association, as a result of the company's financial performance and market developments. Accordingly, 20% of the "consolidated net profit for the relevant period" calculated according to the periodic financial statements prepared in accordance with the International Financial Reporting Standards (IFRS) in accordance with the Capital Market legislation, will be paid either in cash or as bonus shares by adding the relevant amount to the company capital.

It will be distributed as a promissory note, upon a decision to be taken by the General Assembly of our Company. This policy will be reviewed annually by the Board of Directors in case of any negativities in national and global economic conditions, investment projects and the status of the company's financial resources, and its sustainability is one of the main objectives.

I.6 Transfer of Shares

Group A, B and C shares can be transferred freely in accordance with the relevant legislation. In the transfer of shares, the Turkish Commercial Code, Capital Markets Law, Capital Markets Board Regulations, other relevant regulations of the Capital Markets legislation, Central Registry System rules and other regulations regarding the dematerialization of shares are complied with.

CHAPTER III. STAKEHOLDERS

III.1 INFORMATION TO STAKEHOLDERS

Ulusoy Un informs all stakeholders about the developments about our company through accurate, easily accessible, transparent, understandable and legal statements.

III.2 STAKEHOLDERS' PARTICIPATION IN MANAGEMENT

Requests and suggestions of customers and employees are followed, and incoming requests are examined and evaluated. All notifications from customers, employees and all other stakeholders are evaluated in a way that will create a more effective and efficient company management.

III.3 HUMAN RESOURCES

Ulusoy Un Sanayi ve Tic. Inc. As, we are aware that we have to adapt to changing conditions and at the same time reflect high technology, global competition and new opportunities into our lives. We are aware that one of the most important ways to achieve this is undoubtedly to implement a human resources policy that is open to continuous development. Based on the awareness that "The only thing that takes us further is our human resources", we are preparing ourselves for the future in terms of human resources, as well as the large investments we make in technology.

OUR HUMAN RESOURCES POLICY

Ulusoy Un Sanayi ve Ticaret A.Ş.'s basic Human Resources Policy; To create an employee profile that will contribute to the sustainable increase of intellectual capital in order to maintain our ability to compete in developing and constantly changing market conditions, who is specialized in his profession, has advanced

social competencies and high motivation in terms of teamwork, and creates added value, according to contemporary criteria, with the principle of equal opportunity for everyone.

We can define it as being able to maintain long-term cooperation with our employees by evaluating their performance and making career planning with an effective performance measurement system, and managing, directing and developing our human resources correctly. We can list the basic elements of our human resources policy as follows:

- To plan the personnel in terms of quality and quantity, and to employ personnel suitable for the job.
- Keeping the efficiency and effectiveness of the staff at the highest level
- Providing personal development opportunities to all personnel with an effective training plan and program
- To protect and improve the material and moral rights of the personnel
- Creating a work environment that fosters the willingness of all staff to work with their managers and providing an open communication environment.
- To support the professional, personal and social development of employees by providing equal opportunities to everyone in career planning.

III.4 RELATIONS WITH CUSTOMERS AND SUPPLIERS

Ulusoy Un San ve Tic A.Ş. It takes all kinds of measures to ensure customer satisfaction in the marketing and sales of goods and services.

Quality standards are complied with in goods and services and care is taken to maintain the standard.

Within the scope of trade secrets, attention is paid to the confidentiality of information regarding customers and

suppliers. Customer demands regarding the goods and services purchased are met quickly and customers are informed about possible delays without waiting for the deadline.

III.5 CODE OF ETHICS

Ethical rules; It is a set of rules that guide all our attitudes and behaviors while carrying out our activities and business within the framework of laws, regulations and procedures. Ulusoy Un's business ethics rules apply to all employees.

Honesty and Integrity

Integrity and honesty are our primary values in all our business processes and relationships. We act in accordance with the principles of integrity and honesty while fulfilling our duties and responsibilities towards our colleagues within the company, our superiors, our subordinates, in short, all our internal and external customers and partners.

Equality and Justice

Acting equitably and fairly in all our transactions and relationships are our important and indispensable values. We treat each other fairly and respectfully, and do not engage in discriminatory behavior based on religion, language or race.

Compliance with Laws, Regulations and Rules

We act in accordance with the law and regulations, and carry out all our work and transactions in accordance with the laws and regulations.

Behaviors Conforming to Ulusoy Un's Image

Ulusoy has a superior respect and reputation due to its compliance with the rules of business ethics, respect for the society and the environment, and its honest, fair and professional approach in all its relationships and practices. Our employees naturally carry the responsibility of representation. They fulfill this responsibility in a way worthy of Ulusoy U's image and name.

Environmental Protection Safety and Occupational Health

Protecting the environment and human health are the principles we prioritize in all our activities. As employees in a business and working environment where our occupational safety is ensured at a high level, the environment and natural resources are protected and used consciously, we embrace these values and behave in accordance with these values.

III.5.1 IMPLEMENTATION PRINCIPLES OF THE CODE OF BUSINESS ETHICS

Efficient Use of Resources

Company interests are taken into consideration when using resources on behalf of the company. Company assets, facilities and personnel cannot be used outside the company for any purpose other than serving the company's purposes, under any name and on

behalf of anyone, without the benefit of the company.

Managers cannot assign employees to their personal work. (Excluding the Board of Directors). As all employees, we use company resources in the most efficient way possible.

We make good use of "time", one of the most important resources, and complete interviews for mandatory visitors within a reasonable period of time, without hindering the workflow.

Protection of Information Confidentiality

It is forbidden to engage in behavior or actions that would conflict with the principle of confidentiality.

Information about the institution, financial information, personnel information, information about business strategies, contracts, information about business partners, suppliers and customers are confidential information and cannot be changed, copied or destroyed.

Necessary precautions are taken to protect the information.

Remuneration, benefits and similar personnel information of personnel, which reflect company

policy and are personal, are confidential. It cannot be disclosed to anyone except the authorities.

It is strictly forbidden for personnel to disclose this information to anyone else or to pressure other employees to disclose the information.

Our principle regarding information technology security is to keep the security risk at the lowest possible level.

Our employees (end users), who have an important place in supporting the security of information in the electronic environment, are required to show due care in keeping their passwords confidential.

Conflict of Interest and Unfair Benefits

We cannot benefit ourselves, our relatives, our families, or third parties and institutions/organizations with which we have business relations, by taking advantage of our current duties. No personal gain can be obtained directly or indirectly from all transactions and contracts to which the Company is a party.

Working at Another Job

It is essential that Ulusoy Un employees do not work for another person and/or institution for a fee or similar benefit, during or outside working hours.

Employees can only work for another person (family member, friend) or institution outside of working hours for a wage or similar benefit, provided that they do not create self-interest through their duties in the company, do not conflict with the rules of business ethics, and do not adversely affect their ability to continue their duties in the company. may be possible with approval.

Employees can work in non-profit organizations and universities in social responsibility and charity roles with the written approval of the management, without disrupting their duties within the company. Employees must make such requests to the human resources directorate with the knowledge of the relevant

department manager.

Considerations Regarding Souvenirs

It is essential that employees do not accept gifts or benefits that are not in line with the course of business, that may affect their impartiality, decisions and behavior, that are intended to provide privileges or benefits, and that they do not attempt to provide gifts or benefits that may create such effects to third party institutions and organizations.

Company employees are prohibited from accepting free or loan money from subcontractors, suppliers, consultants or customers, and from covering travel and similar payments.

Bribe

Receiving or offering bribes and kickbacks is unacceptable under any circumstances. No employee may offer, promise or give money or anything of value to any person within the business relationship for the purpose of directly or indirectly obtaining unfair advantage.

Unethical behavior such as bribery, corruption and abuse of office should be strictly avoided.

Relations with Media

Invitation to any broadcasting organization, interview, participation as a speaker in seminars, conferences and similar places are subject to the approval of the company's senior management. Official statements to the media can be made by persons expressly authorized by the management.

III.5.2 BASIC QUESTIONS TO BE CONSIDERED FROM ETHICAL PERSPECTIVES

- Do I know how to act according to Ulusoy Un's business ethics rules?
- Is my behavior in accordance with company policies and procedures, institutions and rules?
- Is my behavior balanced and fair? Would I mind if someone else did it?
- Is what I am asked to do in accordance with the law and Ulusoy Un's business ethics rules?

- Is the behavior I witnessed in compliance with the law and Ulusoy Un's business ethics rules and laws?
- Would my company and our stakeholders be disturbed if all the details of this behavior were made public?
- Would I be in a difficult situation or embarrassed if others knew that I was engaging in this behavior?
- Could it have negative consequences for me and the company?
- Who else will be affected by this? (Employees, shareholders)
- How would this behavior look from the outside?
- How was it reflected in the newspapers?
- What would a reasonable person think in the same circumstances?

III.5.2 RESOLUTION OF NON-CONFORMANCE WITH THE CODE OF ETHICS

Those who violate the rules of business ethics or company policies and procedures will be subject to various disciplinary actions, up to and including being asked to leave the job if necessary.

Disciplinary sanctions will also be applied to those who approve or direct inappropriate behavior and actions that cause violation of the rules, or those who have knowledge of these issues and do not make the necessary notification appropriately.

CHAPTER IV. BOARD OF DIRECTORS

IV.1 STRUCTURE, FORMATION AND INDEPENDENT MEMBERS OF THE BOARD OF DIRECTORS

Company; It is managed and represented by the Board of Directors, consisting of at least five (5) members and a maximum of eleven (11) members to be elected by the General Assembly within the framework of the provisions of the Turkish Commercial Code and the Capital Markets Board regulations.

If the Board of Directors consists of five members, two members; three members in case of sub-or seven members; If it consists of eight or nine members, four members, and if it consists of ten or eleven members, five members are elected among the candidates nominated by the majority of group (A) shareholders.

It is mandatory to elect at least 2 independent members to the Board of Directors. The number of independent members cannot be less than 1/3 of the total number

of members of the Board of Directors. The fractional number is rounded to the following whole number. The number and qualifications of independent members who will serve on the Board of Directors are determined in accordance with the regulations of the Capital Markets Board regarding corporate governance principles.

The selection of members of the Board of Directors, their terms of office, and their terms of office are determined by the General Assembly in accordance with the Turkish Commercial Code and other relevant legislation, without prejudice to the regulations brought about by the corporate governance principles of the Capital Markets Board for independent members.

The Board of Directors elects a chairman and not less than one vice chairman or deputies from among its members every year. If one or more memberships are found vacant due to resignation, death or any other reason, a member of the Board of Directors is temporarily elected to these vacant positions to be submitted to the approval of the first General Assembly.

In this way, the member elected to the Board of Directors serves until the first General Assembly Meeting and, in case the election is approved by the General Assembly, completes the remaining term of the member he/she was appointed to replace. In case independent members lose their independence, resign or become unable to fulfill their duties, the Capital Markets Board's regulations regarding corporate governance principles are complied with.

Members of the Board of Directors may be elected for a maximum of three (3) years and until their successors are elected. A member of the Board of Directors whose term of office has expired may be re-elected. Without prejudice to the regulations introduced by the Capital Markets Board's corporate governance principles for independent members, the General Assembly may change the members of the Board of Directors at any time if deemed necessary.

IV.2 BOARD MEMBERS

Chairman of the Board of Directors: Eren Günhan ULUSOY
Chairman of the Board of Directors

Asst. : Kamil ADEM
Member of the Board of Directors: Salih Zeki MURZİOĞLU
